

# TRUEFORM TRAINER

CV-TRUEFORMTRAINER

## STRONGER DESIGN

Engineered for ultimate longevity, the upgraded treads and rollers handle users up to 400 pounds at top speed, ensuring consistent performance under the most demanding conditions.

## BLUETOOTH CONNECTIVITY

Seamlessly connect to FTMS apps like Zwift and Strava, or pair with any Bluetooth heart rate strap or watch. Each treadmill features an individualized Bluetooth code, enabling multiple TRAINERS to operate in the same space without interference—perfect for team workouts, relays, and group training sessions.

## MODULAR DESIGN

Future-proof your fitness investment with modular compatibility for upcoming attachments. At launch, every TRAINER includes our new Power Bar, Cup holder and Phone holder.
